

TASK TRACKER APP

Task Tracker

Add New Task

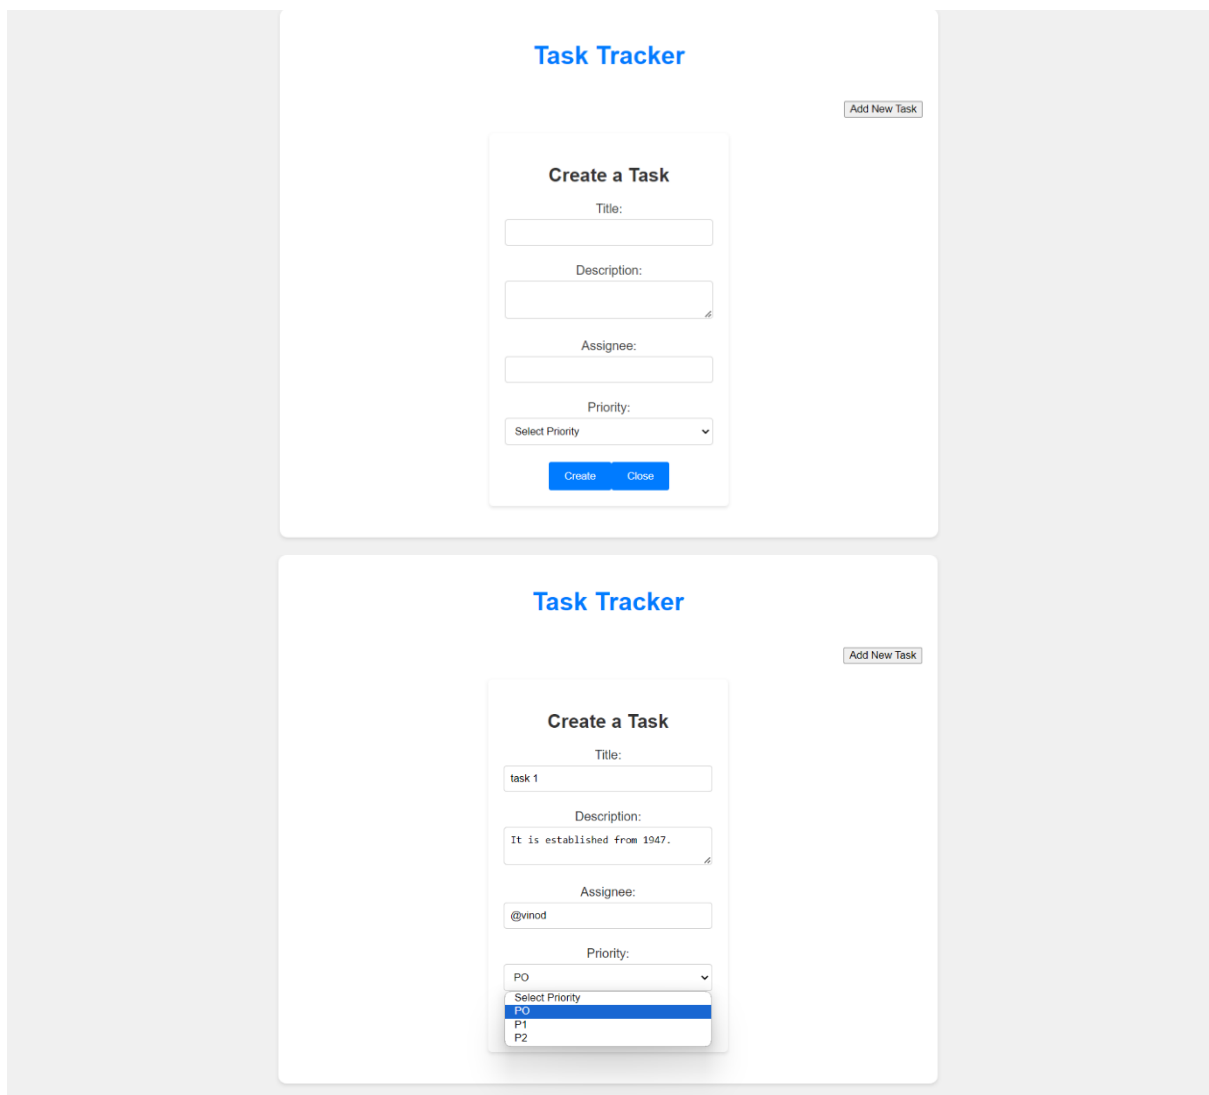

We have to click the “Add New Task” button to add a new task. Then a “Create a Task” section was visible with the following sections:

- Title
- Description
- Assignee
- Priority

P0

P1

P2

Then A new task was created with the below mentioned fields:

Title

Description

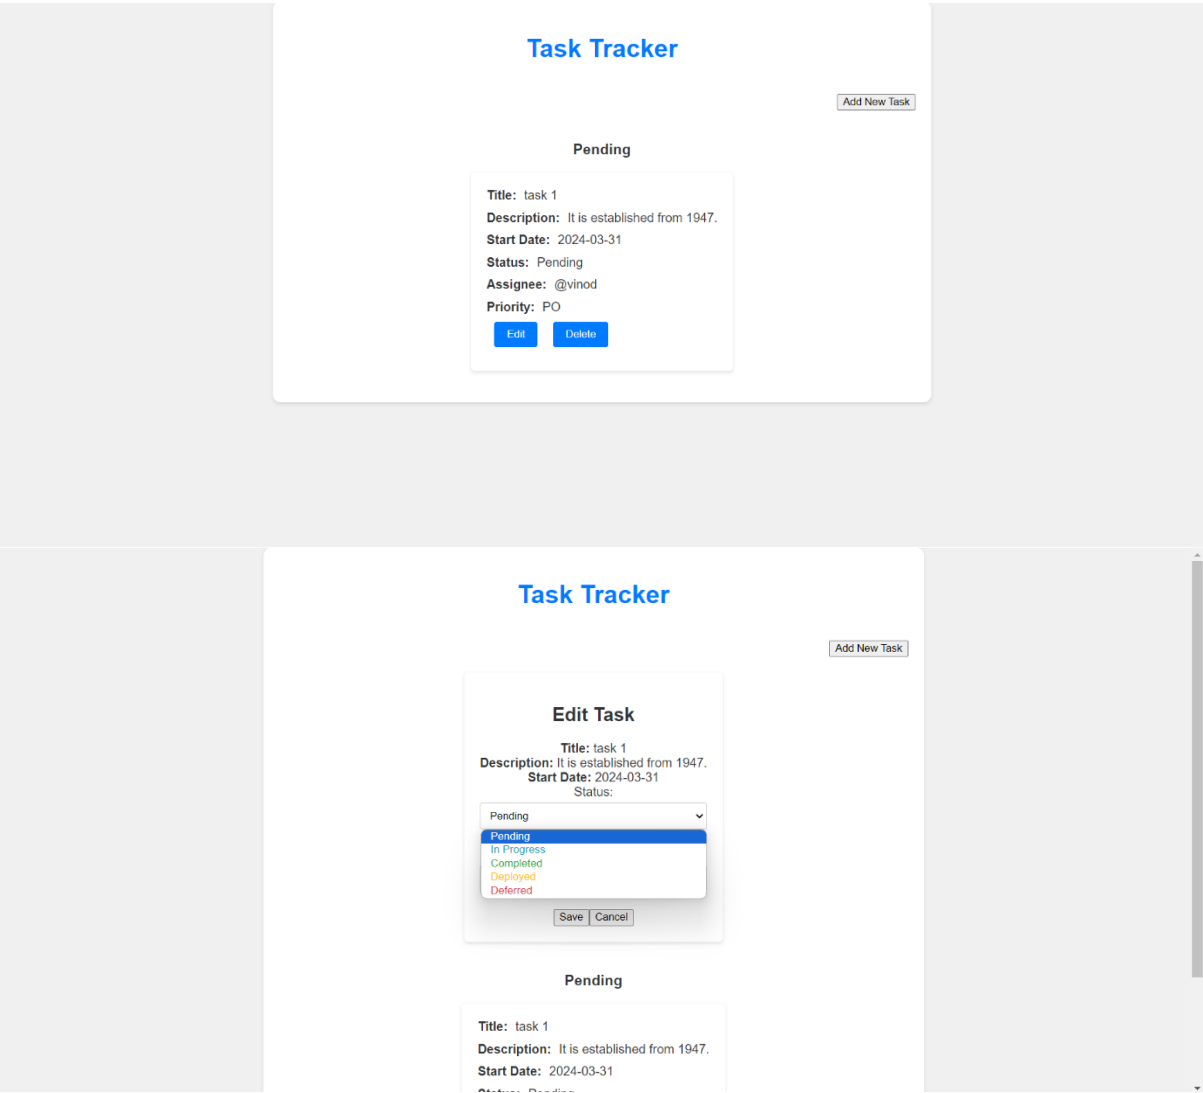

Start Date

Status

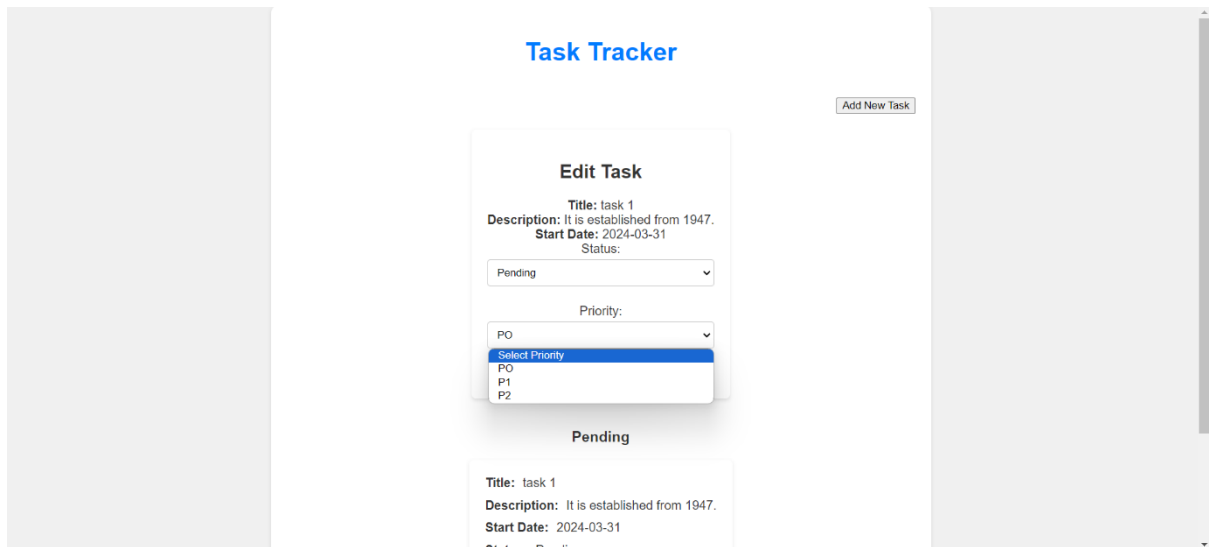

Assignee

Priority(P0/P1/P2)

All the above fields were come under their respective category namely pending, In Progress, Completed, Deployed, Deferred according to their status. It also has Edit and Delete fields in the below section of the created task.

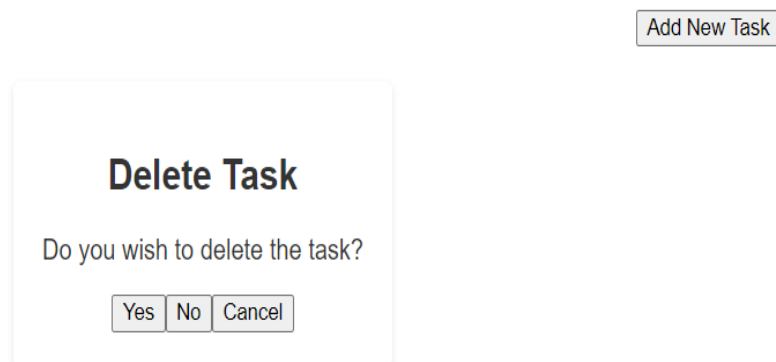

This Edit field has two editable fields which were Status and Priority of the created or current task and it also has non-editable fields Title,Description and Assignee.

When we click the Delete button, it shows Delete Task dialog box with a text “Do you wish to delete the task” with yes/no/cancel options to delete and cancel the delete task.

Task Tracker
